

Sanitation Task card

You have been tasked to set up a sanitation station.

Please find the handwashing station in the shed.

Place near the medical first aid station and/or near the food prep station. Use stored water until filtered water can be found.

Please place hand sanitizer on an accommodating flat surface.

IMMEDIATE WASTE MANAGEMENT:

Please find and set up portable toilet enclosure found in the shed.

Place bucket and toilet lid found in shed in the enclosure.

Please find toilet paper in the shed.

Organize and dig a latrine site for bucket waste disposal.

Please find a shovel in the shed.

Longer Term Waste management:

Collaborate with helpers regarding long term site for longer use waste disposal.

Dig a pit toilet for the shelter area site.

Individuals may dig waste sites near their homes if they shelter in place.

Septic tanks may be used for waste management.

If an individual has enough collected unfiltered water and their home septic system is intact, they may use their existing toilet/septic system.
